England Hockey Ethnicity & Disability Statistics

Whilst it is not compulsory for the following sections to be completed, the paragraphs below explain why this personal information is important.

Sport can and does play a major role in promoting the inclusion of all groups of society. However, inequalities have existed within sport particularly in relation to gender, race and disability. Sport England and English Hockey are committed to promoting and developing sports equity, which is about fairness in sport, equality of access, recognising inequalities and taking steps to address them. By monitoring the profile of people in sports clubs, national governing bodies of sport and Sport England can identify any issues relating to under representation of different groups and can develop strategies to ensure that all people have the opportunity in the future to develop and progress in sport.

To monitor the success of our programmes that are designed to attract people from all communities into the game, England Hockey requests this data from clubs as part of the annual affiliation process. The information you provide will be used for statistical reporting only and will not be linked in any way to identify your personally.
